Personal:

My family and I are transplants from Dayton, Ohio. We have lives in Palm Harbor since July 2005. I have two children currently playing for the Palm Harbor Nighthawks. My daughter plays U-10 Girls Green and my son has just started playing and has finished his first season with the Rascals Blue Racers. I would love to continue serving on the board and supporting our great community.

Philosophy:

To teach and lead are young people to do things that they never thought they could do. My greatest satisfaction in coaching is to watch a new player grow from a shy and unsure kid to a confident kid asking (when can I play another position coach I have this one down). Participating in team sports is a great building tool for our young people and we need to encourage it every chance we get.

- Well organized in business and personal life and have enjoyed supporting the club via the team manager position

Experience:

- Team manager for PHNH U12 Girls Green
- Managed all administrative tasks for a IDEA consulting Group Inc. since 2002.

Personal:

Three children playing for Palm Harbor Nighthawks:

- 12 year old son played recreation soccer in the Fall and is transitioning to U12 Boys Green team
- 10 year old daughter plays on the U10 Girls Green Academy team
- 7 year old son plays on a U8 recreation team

Philosophy:

Encouraging a child to play a sport can be one of the healthiest choices, mentally and physically, that we can make for our children. I have seen so many children completely transform their view of themselves by becoming a member of a Palm Harbor Nighthawks soccer team, my three children only being a few. I don't know of any other activity that can instill such confidence and a sense of belonging to a child, so quickly, than participating in a team sport. It is very rewarding to be a part of an organization that, not only encourages the children to excel and have fun, but also encourages and supports the parents and families as well.
